Get Your Child's COVID-19 Test Results

Schools offering in-person teaching and learning are conducting weekly random testing of students and staff for COVID-19.

- If your child is tested, you should hear results via text, email, or phone call within two to three days.

- Please make sure that your school has your most current contact information!

- If you haven't heard anything after 48 to 72 hours, you can contact the NYC Public School COVID-19 Testing Result Hotline at (646) 614-3028.

- When you call, please have the following information available:

  - Your student's name and date of birth

  - The date and school where testing occurred

  - The name of the lab that performed the test (check the flyer your child was sent home with, or ask your school)
